Links:

National Guidelines Clearinghouse: www.guidelines.gov

About: The NGC is a public resource for evidence-based clinical practice guidelines. You can browse guideline summaries by topic or organization, or view the complete index of all current guideline summaries. You can also read expert commentaries for editorial insights on current issues in the field of guidelines and compare guidelines.

National Institute for Health and Clinical Excellence Clinical Guidelines page:
www.nice.org.uk/Guidance/CG/

About: NICE is an independent organization responsible for providing national guidance on promoting good health and preventing and treating ill health. This page gives you information about clinical guidelines and the NICE guideline development process, as well as access to published NICE clinical guidelines and information on NICE guidelines currently in development.

Veterans Affairs Clinical Practice Guidelines: http://www.healthquality.va.gov/

About: Access to Clinical Practice Guidelines developed by the VA/DoD Evidence-Based Practice Guideline Work Group.

Hawaii State Department of Health online reports (Blue Menu / Biennial Report):
http://www.hawaii.gov/health/mental-health/camhd/library/webs/ebs/ebs-index.html

About: Reports on effective psychosocial interventions for youth with behavioral and emotional needs

PracticeWise (Dynamic searchable database): http://www.practicewise.com/web/

About: PracticeWise offers innovative tools and services to help clinicians and organizations improve the quality of behavioral health care for children and adolescents. They strive to bring science and evidence seamlessly into the process of clinical care, whether through child-specific dynamic summaries of the best available research studies, clinical dashboards for visualization of clinical progress and history, or clinical protocols and summaries representing the most common components of evidence-based practices.

PubMed: http://www.pubmed.gov

About: U.S. National Library of Medicine comprised of over 20 million citations for biomedical literature from MEDLINE, life science journals, and online books. Citations may include links to full-text content from PubMed Central and publisher web sites.

PubMed Central (PMC): http://www. pubmedcentral.nih.gov

About: PMC is the U.S. National Institutes of Health (NIH) free digital archive of biomedical and life sciences journal literature.

PsycINFO: http://www. apa.org/psycinfo

About: Contains citations and abstracts from a wide range of scholarly literature in the psychological, social, behavioral, and health sciences. This database includes journals, books, reviews, and dissertations.

Evidence-Based Behavioral Practice Website: http://www.ebbp.org

About: Creates training resources to help bridge the gap between behavioral health research and practice. Professionals from the major health disciplines collaborate to learn, teach, and implement evidence-based behavioral practice (EBBP).

- EBBP Process Module
- Search for Evidence Module
- Systematic Review Module
- Critical Appraisal Module
- Randomized Controlled Trials Module
- Shared Decision-Making with Individual Clients
- Collaborative Decision-Making with Communities

APA Practice Central (Evidence-based Practice in Psychology online professional development course): http://www.apapracticecentral.org/ce/courses/1370028.aspx

About: Helps practitioners understand the Evidence-Based Practice in Psychology (EBPP) conceptual framework. Topics include the foundational elements of EBPP, barriers to using EBPP and reasons to overcome them, ways to find and use EBPP resources, and how EBPP can be applied in different theoretical orientations.
